

Looking to  
kickstart  
your career in  
agriculture?

Offering a hands-on introduction to the agriculture industry and an opportunity to enrich your knowledge through exposure to GO.FARM's class-leading projects.

## STREAM 1 FARMLAND

Spend 12 months at one of GO.FARM's transformational farming projects.

Our Farmland program offers hands-on experience in farming operations, office-based business and safety protocols, working within a dynamic team to develop key skills and industry relationships.

## STREAM 2 AGRIBUSINESS

Over 18 months, split your time between one of GO.FARM's farming projects and our Melbourne Farm Hub. Our Agribusiness Program provides hands-on farm experience, followed by office-based exposure to key areas like investment, finance, accounts, communications, research, and HR. This immersive approach builds a strong foundation in agribusiness operations.

## ABOUT GO.FARM

We identify underutilised and undercapitalised Australian agricultural assets and transform them to highest and best use. Our expertise lies in land-use change, asset reconfiguration and investment in people, technology, productivity and sustainability.

### Natural capital stewardship

Preserve and enhance the productive capacity of the land through world class land and water management.

### Inspiring our people

Inspire and develop a team of high performing, happy and healthy people to perform at their best.

### Meaningful community impact

Have a positive and meaningful impact on communities where we live and work.

Applications are open for 2026.

Get ready to join the next generation of industry leaders in agriculture.

# The Graduate Experience

Hear from GO.FARM's recent graduates.

*"I've learnt so much about the business and the industry already, and I'm only half way through. The whole team has been so supportive."*

Rachel had no farming experience prior to starting her graduate year. Her interest in farming grew as she studied a Bachelor of Agriculture (Economics) at the University of Melbourne.

Rachel completed a farm rotation at Petro Station where she was involved in broad acre harvest, and is rounding out her graduate year at the Melbourne Farm Hub.

RACHEL HOSKING – AGRIBUSINESS GRADUATE 2023

*"In my first month on farm I have been exposed to all facets of the business. I am excited to gain more valuable experience before my move into the financial aspects of GO.FARM."*

Ethan hails from New Zealand's South Island where he studied a Bachelor of Commerce (Agriculture) at Lincoln University.

Making the move to Australia specifically for the graduate program, Ethan is currently undertaking his farm rotation at Petro Station.

ETHAN O'TOOLE – AGRIBUSINESS GRADUATE 2024

*"My time on farm has allowed me to build a deeper knowledge of large-scale farming operations, and to really understand the core of GO.FARM's business."*

Originally from Robe in South Australia, Sam has found his place in the GO.FARM Agribusiness Grad program after completing a Bachelor of Law and Commerce from the University of Adelaide.

Sam has family connections to agriculture and hopes to combine his learnings from the graduate program with my previous studies and contribute to feeding a growing population responsibly.

SAM ALTSCHWAGER – AGRIBUSINESS GRADUATE 2024

*"GO.FARM has offered guidance and support whilst presenting me with challenges – making this learning curve an enjoyable experience. The farming team's welcoming demeanour has been instrumental in easing my move to Australia."*

After completing a Bachelor of Science majoring in Agriculture from Lincoln University in New Zealand, Olivia has started the Farmland Graduate program with GO.FARM, and is located at one of GO.FARM's largest farms in Northern Victoria.

Olivia has previous livestock experience and is enjoying working with the Horticulture team at Sandmount.

OLIVIA HALL – FARMLAND GRADUATE 2024
