

Junior Learning Technologist

Digital Innovation

Candidate Information Pack – September 2021

About the Royal Agricultural University

The Royal Agricultural University has been at the forefront of agricultural education and a key contributor to the land-based sector for over 175 years.

Our heritage

The Royal Agricultural University (RAU), formerly the Royal Agricultural College, was the first agricultural college in the English-speaking world. The first 25 students were admitted in September 1845.

From its early days, the College was staffed with innovators and pioneers and made a considerable impact on farming practice and agricultural science. In 2013, the Privy Council awarded the College full University Status with Taught Degree Awarding Powers, in recognition of its long record in the provision of higher education.

The present

The RAU has some 1,200 students studying a range of subjects, including agriculture, animal science, business, environment, equine science, farm management, food, real estate and rural land management. Set on the edge of Cirencester in the beautiful Cotswold countryside, its small size provides an exceptional sense of community amongst students and staff, which supports, develops and encourages students from all backgrounds to achieve their ambitions.

The University motto is 'Arvorum Cultus Pecorumque', a quotation from Virgil's *Georgics*, meaning 'Caring for the Fields and the Beasts'. This maxim has been enduringly relevant for a University which, in every area of its activity, has worked to promote sustainable use of the land, safeguard the environment and animal welfare and the wellbeing of rural communities. The RAU prides itself on combining subject expertise with industry connectivity and an innovative, forward thinking, enterprising approach. This opens doors for students, and RAU graduates are well prepared for successful careers in their chosen field, whether that be leading innovation and change in industry, informing future land-based policy, or setting up their own businesses.

The future

Since 2016, the RAU has achieved significant progress against its strategic plan and has delivered transformation and change. The RAU has redefined its purpose as "to cultivate care for the land and all that depend on it".

Core elements of the strategy include:

- Growing and diversifying the student community by providing an outstanding student experience and excellent employment outcomes. Innovative programmes will be informed by the evolving needs of industry and designed for learners at all stages of life, delivered via traditional and online learning platforms.
- Establishing a Knowledge Hub that will help industry navigate change and uncertainty making it possible to tackle big challenges more effectively, thereby delivering societal benefit and impact. The Hub will provide a focus to catalyse farmer led innovation, act as an accelerator of rural enterprise and become a centre for thought leadership for development of evidence-based policy and strategic thinking.
- Becoming a sustainable, efficient organisation that can fund a continuing investment in its physical, digital and human infrastructure, ensuring a continually improving and excellent experience for students and staff.

- Partnering with land-based colleges and schools to extend and diversify the student community. The University will foster thriving linkages to a variety of localities and communities across the UK, thereby extending the reach of learning opportunities it offers and the impact of its research.
- Developing sustainable partnerships with industry and research-leading institutions to provide a wider perspective, ensuring that what it teaches is relevant, improves student employment outcomes and enables sustainability-oriented innovation.
- Building on existing and successful international partnerships, among which a prominent feature has been teaching partnerships with Chinese universities.

“The RAU’s mission is to equip a new generation to thrive through change”

Select highlights

The RAU has achieved significant progress against its strategic plan. Recent successes include:

- Ranked one of the UK's Top Ten Universities. Whatuni Student Choice Awards, both 2019 and 2020 <https://www.whatuni.com/student-awards-winners/university-of-the-year/>. We were also top 10 for job prospects in both years.
- Enterprising Learning Provider of the Year 2019: IOEE Celebrating Enterprise Awards 2019 <http://ioee.uk/2019/10/07/celebrating-enterprise-awards-2019/> . Awarded Centre of Excellence by the Institute of Enterprise and Entrepreneurs (IOEE) in the same year.
- Winning £1.1m of Catalyst funding to develop the next generation of agri-food/ tech leaders and to create new industry- led programmes that aim to position the RAU as a thought leader post-Brexit.
- Addressing highly relevant global grand challenges – such as climate change, food security and urbanisation– through the [Rural Knowledge Hub](#), which initiates thought leadership activities and accelerates the growth of rural enterprises through the Farm 491 agritech business incubator based in the new Alliston Centre and also the new [National Innovation Centre for Rural Enterprise](#).
- Increasing the percentage of state - school entrants launching two new funds with a specific focus on widening participation and getting involved in two national outreach programmes and the Agrespect rural LGBT+ network.
- Securing a £2.2 million endowment from the John Oldacre Foundation to support applied research, and PhD students. Current PhD projects include crop science, land values in London boroughs, and equine nutrition.
- Expanding its CPD offer via the [John Oldacre Rural Innovation Centre](#), which is based at Harnhill and offers a large range of practical, industry-facing courses that teach rural skills.
- Establishing new and mutually beneficial academic partnerships with further education providers, such as the validation arrangement with Plumpton College and the urban farming focus afforded by the link with Capel Manor College in London.

Further information on other initiatives and successes can be found [here](#).

The Role

Job title:	Junior Learning Technologist
Department:	Digital Innovation
Responsible to:	Director of Digital Innovation
Location:	Royal Agricultural University, Cirencester
Salary:	Grade 6: £26,341 - £31,406 dependant on qualifications/experience
Term:	Full-time (35 hours per week), permanent; The University is trialing a hybrid approach to work; there will be some capacity for working remotely.

Purpose

To provide training and develop guidance for core IT and Learning technology packages, as well as providing pedagogical expertise to business systems trainers.

To support the Learning Technology team in providing technical and creative expertise, specialising in online and blended learning, particularly in transnational education. Support the Learning Technologists in designing and developing a wide range of digital resources to enhance teaching and learning and make the RAU the leading specialist University in land, agri-food and rural enterprise sectors.

Key Responsibilities

1. Work with the Learning Technology and wider Digital Innovation team to provide face-to-face and online training and guidance for core Learning technology and IT systems to Academic and Professional Services staff as well as students. Examples of core systems include Moodle, Panopto and Office 365.
2. Provide pedagogical expertise to departments who are planning to provide training for their business systems.
3. Develop and maintain training resources in a range of formats and media for a wide range of users. Plan, design and deliver innovative and engaging training and development activities for students and academic and professional services staff.
4. Provide specialist, professional advice and expertise to support informed decision making in the use of learning technologies to enhance online and face-to-face training.

- 5.** Support the Learning Technology team in working with academic and professional services staff to enhance and modernise the digital teaching and learning environment for transnational, on-campus, distance and blended learning students.
- 6.** Support the Learning Technology team in designing and developing innovative, effective and accessible digital resources to support (transnational) teaching and learning, including interactive, multi-media and video elements.
- 7.** Support the Learning Technology team in the identification, evaluation, testing and implementation (including training) of new digital learning tools and technologies, as well as in the maintenance and development of RAU's existing digital learning tools and technologies.
- 8.** Where required, participate in the coordination of the delivery of digital content to the required timescales by both internal and external academic staff.
- 9.** Maintain high standards of service through effective verbal and written communication and a positive collaborative approach, supplying data and reports as required, and assisting with measurement of services in accordance with key performance indicators.
- 10.** Work to ensure compliance with relevant legislative requirements including data protection, product licensing and copyright clearance.
- 11.** Represent the department at internal committees and meetings.
- 12.** Work outside of standard working hours when required, adopt a flexible approach and undertake other tasks as required
- 13.** Keep up to date with personal and professional development.

General Responsibilities

- The University is committed to equality of opportunity. All staff are required to comply with current legislation, University policies and good practice guidance.
- All staff are required to act in a way that safeguards the health and wellbeing of children and vulnerable adults at all times. The post holder must be familiar with and adhere to appropriate safeguarding policies and guidance and participate in related mandatory/statutory training. Managers have a responsibility to ensure their team members understand their individual responsibilities with regard to safeguarding children and vulnerable adults.
- All staff are required to participate in the University appraisal process and should ensure they are familiar with the process and plan time to prepare for their appraisal. Following the appraisal, staff are expected to undertake in any necessary learning and development and work towards the objectives that have been set.

- The University expects staff to attend any training designated as mandatory and to undertake learning and development activities to support their role. Managers must facilitate learning and development within their teams.
- It is a condition of employment that staff will not disclose any information obtained in the course of their duties other than to those entitled to receive it. The post holder must ensure that the confidentiality of personal data remains secure and that restricted information or highly restricted information to which they have access remains confidential during and after their employment at Royal Agricultural University. All staff must undergo appropriate data protection training as required.
- All absence from work must be reported in accordance with the University's absence procedures and recorded on iTrent.
- The University acknowledges its responsibility to provide a safe, smoke free environment, to its employees, service users and visitors. It is the policy of the University not to allow smoking on University premises other than in specifically designated areas.

Person Specification

Requirements The post holder must be able to demonstrate:	Essential or Desirable	Measured By A) Application Form B) Interview
Qualifications		
Degree or equivalent vocational qualification or experience	E	A
Qualification in Technology Enhanced Learning e.g. CMALT	D	A
Knowledge and Experience		
Practical experience of delivering face to face training and development, as well as developing online training packages and guides	E	A, B, C
Proven ability to design, develop and deliver innovative (digital) learning materials for online delivery using sound pedagogical principles	E	A, B, C
Knowledge and experience of learning design principles and the ability to present complex ideas and information in a clear, easily understandable manner.	D	A, B
An understanding of current issues in teaching and learning, in particular, with respect to using technology to enhance the learning process.	D	A, B

Requirements The post holder must be able to demonstrate:	Essential or Desirable	Measured By A) Application Form B) Interview
Experience of designing for and using and supporting others using Moodle or similar VLE system.	D	A, B

- Should you be selected for interview please be aware that we are unable to reimburse interview expenses.

General Data Protection Regulations: Applicant Privacy Notice

The Royal Agricultural University collects and processes your personal data so that it can meet its statutory and legal obligations, and when it has a legitimate interest in processing personal data before, during and after the end of the employment relationship.

The data which forms part of your job application (for example, application form, CV, references, Equal Opportunities Monitoring Form, shortlisting and interview records) will be stored in a range of different places, which will include the University's HR and recruitment management systems (electronic and paper based), and in IT systems (including the University's email system). Your information may be shared internally with the HR Department and with employees who are involved in the recruitment and selection process, but only if access to your data is absolutely necessary for the performance of those roles.

The University may share your data with third parties in certain circumstances. Personal data that the University uses for the purposes of equal opportunities monitoring and reporting is anonymised or is collected with the express consent of applicants, which can be withdrawn at any time. Applicants are entirely free to decide whether to provide such data and there are no consequences of failing to do so.

The University takes the security of your data seriously and has internal controls in place to try to ensure that your data is not lost, accidentally destroyed, misused or disclosed, and is not accessed except by the above employees in the performance of their duties. If your application is unsuccessful, your applicant data will be destroyed 6 months following the advertised closing date of the post you have applied for. If your application is successful, your applicant data will be retained during your employment and for 6 years following your leaving date. You can access and obtain a copy of your data on request and you can ask the University to change incorrect or incomplete data.

In certain circumstances you can ask the University to stop processing your data, or you can object to the processing of your data. If you believe that the University has not complied with your data protection rights, you can complain to the Information Commissioner. Further information about your rights in accordance with Data Protection and the GDPR Regulations can be obtained from the University Data Protection Officer. A detailed Employee Privacy Notice is available to view [here](#).
